Amit Kumar Murmu

Frontend Developer(React)

PROFESSIONAL SUMMARY

Highly skilled Frontend Developer(React) with expertise in React.js and related technologies. Solid understanding of frontend development principles, design patterns, and best practices. Collaborative team player with excellent problem-solving skills and attention to detail. Effective communicator and proactive self-starter, dedicated to delivering visually appealing and scalable user interfaces. Strong proficiency in JavaScript, HTML, CSS, and Git.

PROJECTS

1. InterviewIQHub | 🌐 | 📱

HTML | CSS | JavaScript | React | MngDB | Express

- Designed and developed an app for inviting and assessing guests for interviews
- Implemented features such as anti-tab switching to ensure a smooth user experience
- Created a question listing functionality for multiple-choice questions
- Categorized and displayed results based on assessment performance
- Took ownership of backend authentication, question creation, and API endpoint implementation

2. Todoist clone | 🌐 | 📱

HTML | CSS3 | JavaScript | React

- Built a responsive sidebar
- Implemented todo adding, editing, and deleting feature
- Completed as a solo project within a tight 5-day timeframe

3. Grocery Hub | 🌐 | 📱

HTML | CSS3 | JavaScript | json-server

- Developed a fully responsive website for India's largest online food and grocery store
- Implemented product filters based on brand, price, and discount
- Created a login and signup page using json-server
- Designed and implemented the navigation bar and footer
- Integrated cart functionality for adding, removing, and updating items
